LHA Snoopy
Listed by Dave & Sue Jones
Type: Huacaya
Status: Proven
Birthdate: 4/6/2003
Heritage: Full Peruvian
ARI #: 846864
Color: Medium Fawn

Micron Count 2004: The numbers say it all! FD: 22.4, SD: 4.3, CV: 19.1
Shearing Weight 2004: Blanket: 2 lbs. 12 oz. 2nds: 2 lbs. 8 oz. 5-1/2 in. staple length in 11 mos.
UPDATE: Snoopy's first female cria was born May 15 - a beautiful medium fawn little girl weighing in at 15.5 lbs (2 weeks early). She appears to be doing just fine!
She's been named Dainty's Chiquita and you can see a couple pics of her in Dainty Charm's sales listing. Chiquita is exhibiting the outstanding fleece characteristics that Snoopy is putting into all his crias! Our first cria for 2007 was born on his due date. May 1 - a gorgeous dark brown male sired by Snoopy. We've named him West Winds Conquistador. His dam, LHA Shirley Ann & Snoopy have made us VERY proud. This is one awesome boy - strong, straight, & handsome as all get-out!! You can catch pics of Conquistador under our "Foundation Herd."
Snoopy's first cria, a gorgeous golden-honey colored fawn male was born on 9/2/06! He weighed in at 21 lbs 12 oz! He has incredibly bright, curly fleece that's has an awesome staple length. Born while we were getting hit with the remnants of tropical storm Ernesto, we figured it only fitting to name him West Winds Ernesto! Check out his listing under our "Foundation Herd." This boy has that "WOW!" factor the minute you see him. So far, he has surpassed all our expectations - he is just outstanding! Everyone who sees him agrees with us: he's a big, strong, solid male. He began his breeding career in the fall of 2005 here at West Winds Alpaca Ranch. He's got gorgeous, crimply fiber with an incredible staple length, and boy, is it dense! His gentle nature makes him a real pleasure. He's now ready & willing to service your females, so don't delay in reserving a breeding for your girls - call us for more information! Discounts for drive-by and mobile breedings! Negative BVD July 2006. Stud Fee: \$1500

LHA Peruvian Morgan (Full Peruvian)
Listed by Ken & Cooper Smith
Type: Female Huacaya
Status: Bred / Unproven
Birthdate: 5/27/2005
Heritage: Full Peruvian
ARI #: 1352986
ARI Color: Light Fawn

Micron Count 2006: AFD 20.6 SD 4.1 CV 19.9 %>30 1.9
Morgan is a rare Full Peruvian vicuna colored female. The Vicuna coloring is a desirable and sought after trait, as some believe it has a direct connection to the vicunas in Peru that are world-renown for their ultra-fine fleeces. We believe this may be where Morgan gets her very own fine fleece from. Morgan should also be noted for her very tight character fleece throughout. Her conformation is solid, and has always been a fairly large framed female. Morgan has a nice foundation fleece that should be easy for the right herd sires to make the best out of. It is not easy to find full Peruvian colored females at this price. Morgan isn't just fawn though, her genetics are filled with color. Her maternal siblings range in color from fawn, to brown, to grey! Morgan will sell with a free breeding to 'SCA Peruvian Cobra'; a multi-Champion fawn son of Accoyo Avenger and
